300 Series Sliding Patio Door

Duralite™

Duralite™ Spacer System

To ensure your home will be comfortable during the intense heat of summer and the frigid winds of winter upgrade your new windows and doors to our high performance glass package with Duralite™.

- Lowest conductivity warm edge spacer
- Improved condensation resistance
- Superior argon gas retention
- Unique patented design
- Exceeds ENERGY STAR requirements

Value

The 300 Series Patio Door represents state of the art design in window systems, among the most advanced in the industry. We offer styles and options to fit any architectural requirements – both contemporary and classic. We build to a quality level achieved from years of experience and back it with our Lifetime Limited Warranty.

Glass Packages

Insulating glass maintains comfort, saves energy, and reduces outside noise. The 300 Series Patio Door insulating glass is made with the following high quality elements.

- Standard Double Strength Glass
- Standard Tempered Safety Glass
- Optional Low E Glass with Argon gas

Comfort

Choosing windows for your home requires consideration of the light and ventilation desired; both the interior and exterior appearance; the ease with which you can maintain, clean and use everyday; plus their energy performance and sound protection. The 300 Series Patio Door can satisfy all of these requirements but, most of all our windows are designed and built to enhance the comfort and value that you associate with your home.
